South Carolina State Accident Fund

Physical Therapy

The Company
The South Carolina State Accident Fund is the leading provider of workers’ compensation insurance in South Carolina. Since 1943, the State Accident Fund has provided a continuous, guaranteed source of cost effective coverage. The State Accident Fund serves 700 employers and 200,000 employees throughout the state.

Innovation
As a long time bill review customer, the State Accident Fund has benefited from an average net savings of 62% per bill. CorVel continually strives to uncover new savings opportunities for our customers. As part of the State Accident Fund’s annual stewardship meeting, CorVel presented the savings potential of utilizing our physical therapy program. With CorVel’s proven success in physical therapy savings, the State Accident Fund implemented a pilot program to see how it could further improve their savings.

Results
By utilizing CorVel’s physical therapy program, the State Accident Fund has been able to focus on rehabilitation while controlling utilization and managing costs. The program resulted in 20% total savings the first year alone. In 2013, the State Accident Fund showed a 25% reduction on the average paid per claim, and there was a 26% decrease in the number of physical therapy visits per claim.

“CorVel has produced savings by managing the number of visits and cost per visit without compromising care. Our partnership with CorVel has helped us be cost effective and efficient in the handling of our claims.”
Harry Gregory, Director
The South Carolina State Accident Fund
