

Medicare Reporting Legislation

February 18, 2010

Medicare Mandatory Insurer Reporting Requirements (MMIRR)

Background

The Centers for Medicare/Medicaid Services (CMS) requires their interests be protected prior to any settlement of the medical portion of a claim for qualified individuals. Recent laws mandate that claims with the potential to be covered under the CMS regulations must be reported.

CMS Updates Published February 17, 2010

The Center for Medicare/Medicaid Services (CMS) has released a postponement of the mandatory secondary payer reporting requirements for the non-group health (NGHP) industry. The new initial production will begin January 1, 2011. CorVel is closely monitoring this reporting change and will publish ongoing updates as we receive information from CMS.

Additional Information

Contact your CorVel Representative, email marketing@corvel.com, or visit www.corvel.com to access additional information and listen to recorded webcasts.

You can also visit www.cms.hhs.gov for additional CMS updates and bulletins.
